Item: _____ Serial # _____

I certify that to the best of my knowledge the above listed item(s) have been cleaned of pathogens and radioactivity and is (are) therefore safe to be handled by service personnel.

Signature: _____

Notes:

- 1) After having decontaminated the instrument of all blood, biological fluids and radioactivity, attach this certificate to the instrument requiring servicing.
- 2) Any instrument arriving at Diamed without a completed and signed form will not be serviced or inspected until the form has been received.
- 3) If an instrument is received at our service facility and in our opinion is a radioactive or biological hazard, the sender will be contacted for disposition instructions *at the sender's cost*.
